

Kindergarten Learning Activities

May 19-22

****Read with your child every day****

wellness	play	literacy	numeracy
Create a calming bottle/jar. Click here for how to make one.	Sink or Float - find a variety of small objects around the house. Fill a container with water. Be a scientist and predict what each object will do, sink or float? Why do you think the objects did what they did?	Letter Hunt - Can you find words that have the letter Qq in them? Practice printing Qq by using things like pencil and paper, finger in salt, stick in the dirt or with play dough!	Find a dice and play the Roll and Tally Game . Which number did you roll the most?
Listen to the story The Bad Mood and The Stick . What cheers you up if you are in a bad mood?	Go outside and look under, in and around things for different types of insects. What do you notice that is the same about the bugs? What is different?	In your journal this week draw some bugs you found in your yard. Add some labels by stretching out the sounds you hear in the word.	Go on a number hunt around your house. Where can you find numbers? (ex. on microwave oven, on measuring cups etc.)
Build an indoor obstacle course. Here are some ideas. If the weather is nice, try building one outside.	Play I spy with my little eye something that begins with the letter (you get to choose the letter)	Watch this video about insects. Talk with your family about some of the things you learned about bugs.	How many ways can you show the number 8? Draw them in your math book and take a picture to send to your teacher. Then have fun making your 8 dude.
Tell our family some of the things that you love best about spending time together.	Set up a play store at home. Will it be a toy store? Bakery? Fruit stand? How much will you price each item?	Read this story called Bugs . Practice reading it 3 times to your family.	Find 8 different objects in your house. Organize them from biggest to smallest.
